

MC/MA Series Replacing Legacy FC/RC

Dear Valued Partners,

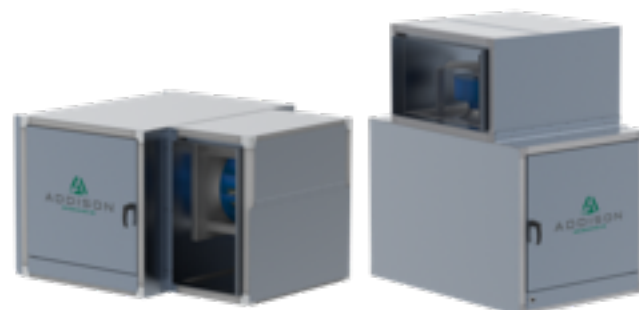

The response to our new MC/MA split system has been overwhelming! Positive reviews of the air handler's modular design, direct-drive plenum fans, and 2" double-wall construction has led us to make this product our designated split system choice.

Our legacy FC/RC product line will be phased out from the ACE Interface selection program on May 1, 2020. We encourage you to save all selections with this product or reselect them as MC/MA.

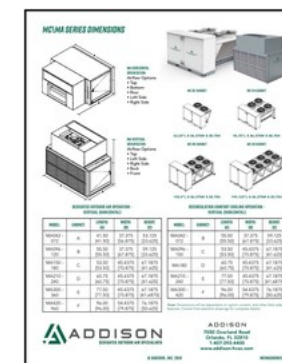

We will honor valid quotes and selections for this product until the stated expiration date of your quote. If you have any questions or concerns please do not hesitate to contact your local Regional Sales Manager or our Application Department.
