Introducing the Addison AK Series!

The AK is yet another result of our continuous commitment to developing industry leading products, coupled with customer feedback and requirements. The AK series delivers exceptional performance and versatility over its standard 10-47 ton range. Featuring a compact footprint with either vertical or horizontal discharge, it's a perfect match for every application requiring dedicated outdoor air. Additionally, the footprint is similar to many Addison legacy products and, as an added advantage, offers a smaller footprint than many competitors. From retail, offices, hospitality, and more, the new AK Series is a perfect fit for your next project! Find out more about Addison's newest product addition by clicking the image below.

A few standard features offered by the AK Series:

- Compact Footprint
- Reduced Cabinet Weight
- Modulating Reheat Circuit
- 6-Row Intertwined Air Coils
- Up to 6" of Media Filtration
- Switchable SubCooling Circuit
- MicroChannel Condenser Coils
- Modulating Electric or Gas Heat
- Airflow from 2,500 - 11,000 CFM
- 2500 Hour Salt-Spray Rated Cabinet
- Hinged, Double-Walled Access Doors
- Scroll Compressors (Optional Lead VFD)
- All-Digital Controls with BAS Integration
- Direct Drive EC Plenum Supply Blowers
- Optional 10,000 Hour Corrosion Protection
- 2" Foam-Injected Double-Wall Construction (R-13)

This packaged rooftop system is now available for selection, pricing, and ordering within ACE Interface! Please contact your Regional Sales Manager or our Applications Department with any questions.
