

THE NEW MI SERIES DOAS

NOW AVAILABLE FOR ONLINE SELECTION & PRICING!

Valued Addison Partners,

We are pleased to announce the release, and availability in ACE, of the Modular Indoor MI Series product line.

Building upon the same technology utilized in our packaged rooftop products, the all-new MI Series brings it indoors into a compact vertical footprint. The MI is perfect for many applications requiring clean, fresh air but can't accommodate a rooftop or pad-mounted unit. Available as a self-contained (water cooled or water-source heat pump), or split system (with remote air-cooled condenser), the MI Series brings enhanced flexibility to your next project.

For more information, click below to visit the MI product page on our all-new website.
