

Addison's three-day training is a perfect opportunity in which technicians will gain knowledge and certification in Addison controls, products, service, and unit operations.

This course will involve lecture, demonstration, informative literature, hands-on experience, and a shop tour. The cost of this course will include light breakfast options and lunch on all three days. To best accommodate our guests please advise of any attendees with food allergies at time of class registration.

Payment must accompany the submittal of the registration form. If a cancellation must be made, we ask that you notify us of this change no later than 48 hours prior to the start of the scheduled class. All payment and registration forms can be submitted to Judy Linder at judy.linder@addison-hvac.com.

We are excited about these opportunities and look forward to meeting and training you soon!
